

# Settings Auditor Add-On for Argus Titan Systems

The Settings Auditor monitors and logs all setpoint and settings changes performed on the Argus Control system.

## Applications

The Settings Auditor can be used for security purposes and for diagnosing and correcting problems related to changes in control settings. A complete history of all changes is maintained for review by authorized operators.

Uses include reviewing recent changes for accuracy, recovery of accidentally changed setting values, and monitoring system use and activity for security purposes.

Argus Audit Trail Viewer - [2007 01]
