

## Titan Spare Parts Kit (for V2.0)

The standard spare parts kit consists of:

- 1 - Controller v2.0 Board and Controller Master Backplane
- 1 - I/O Board and I/O Backplane
- 1 - I/O Power Supply Board
- 2 - Network Terminators

### Applications

The Titan spare parts kit is used for fast on-site replacement of key Titan system components. These parts can be replenished individually as needed.

### Alternatives

Argus maintains a warehoused stock of replacement components that can be rush shipped as needed. Repair exchange & extra spare parts are also available.

### Additional Information

For individual component specifications please refer to the data sheets for the following modules:

**TC-AP-2.0/C** - Access Point Module

**TC-IO-1.21/RCP** - I/O Module

**TC-IOPS-1.3/RCP** - I/O Power Supply Module

For more information, please contact Argus.
